- All-Around Disc
- Great for Beginners
- Short to Medium Turnover Shots

MORE INFO

The Aero is great for beginners and players using only one disc. It's extremely straight and very easy to keep on the fairway for beginners. The Aero was introduced in 1983 as the first disc designed specifically for disc golf (then called the Eagle) and we're commemorating 40 years since the first true golf disc was created by releasing this 40th Anniversary Halo Star Aero.

MSRP: \$20.99
